

Summit Series FAQs

What do I need to do to prepare for the Summits?

► CPS Schools

Before attending the summit, take some time to talk with your students, arts instructors, classroom teachers, and/or administrators to determine your school's needs or interests. Try to get the clearest picture of what your school currently offers to students and what is lacking. This can help you to have a more targeted conversation with arts partners and colleagues. Feel free to review the [Arts Partnership Process: Steps for Program Success](#) for additional tips.

► Arts Partners

Before attending the summit, take some time to review your programs and past partnerships. Gather materials and/or resources that best showcase the benefit of your programs. Feel free to review the [Arts Partnership Process: Steps for Program Success](#) for additional tips.
