## Planning for Subsequent School Years

CPS High School received a total of 91 points with a final CSC rating of Excelling (90-100 points). **Excelling schools are those that meet the goals and priorities outlined in the [CPS Arts Education Plan](#).**

While your school was rated as Excelling for 2022-23, to maintain your rating for the 2023-24 school year and plan for the 2024-25 school year, assuming all else holds equal, we have compiled the following recommendations to consider. The following may increase the total number of total points your school will earn. If you know that something has changed from 2022-23 to the current school year and are concerned your school's overall rating may be adversely affected, the following items can also be considered to earn more points on other metrics.

Creative Schools Certification Element	Details	How many more points will my school receive?
Disciplines and Depth	Your school reported offering 3 Artistic Discipline(s) (Music, Theatre, Visual Arts) , and 2 of those Discipline(s) had more than one year of coursework available to students. To receive full points, a school needs to offer at least three different artistic disciplines, each having multiple years of coursework.	5
Arts Inclusion in School Governance	Your school received 6 points. In order to receive full points, all three governance situations would need to be true at a school.	2
Instructional Approach	To receive full points, your teachers must utilize one of the listed instructional approaches.	2
